## CHARTER

---

*An Act for incorporating the Trustees of Hampden-Sidney.*

[May, 1783.]

I. WHEREAS it is represented to the present General Assembly that an Academy has been founded in the county of Prince Edward, and which hath been supported by the generous donations of a few public-spirited citizens for several years past; but that, in order to make the advantages arising therefrom more permanent and diffusive, certain privileges are essentially necessary for conducting the same in future to greater advantage; and this Assembly, warmly impressed with the important advantages arising to every free State by diffusing useful knowledge amongst its citizens, and desirous of giving their patronage and support to such seminaries of learning as may appear to them calculated to promote this great object:

II. *Do hereby enact*, That from and after the passage of this Act, the said Academy shall obtain the name and be called the "College of Hampden-Sydney," and that the Rev. John Blair Smith, Patrick Henry, William Cabell, Senior, Paul Carrington, Robert Lawson, James Madison, John Nash, Nathaniel Venable, Everard Meade, Joel Watkins, James Venable, Francis Watkins, John Morton, William Morton, Thomas Reade, William Booker, Thomas Scott, Senior, James Allen, Charles Allen, Samuel Woodson Venable, Joseph Parke, Richard Foster, Peter Johnson, the Rev. Richard Sankey, the Rev. John Todd, the Rev. David Rice, the Rev. Archibald McRobert, and their successors, are hereby constituted a body politic and corporate, by the name of the "President and Trustees of Hampden-Sydney College," who shall have perpetual succession and a common seal; and that they and their successors by the name aforesaid, shall be able and capable in law to possess, purchase, receive, and retain to them and their successors forever, any lands, tenements, rents, goods, or chattels,

of any kind whatsoever, which may have been given already, or shall in future be given or purchased by them, for the use of the said College, and the same to dispose of in whatsoever manner they shall adjudge most beneficial for the use thereof; and by the same name to sue and implead, be sued and impleaded, answer and be answered, in all courts of law and equity, and, from time to time, under their common seal, to make and establish such by-laws, rules and ordinances, not being contrary to the Constitution or laws of this Commonwealth, as by them shall be thought necessary for the good order and government of the professors, masters, and students of the said College.

III. *And be it further enacted*, That the said president and trustees, or any seven of them, shall have full power and authority to meet at such times as they shall think necessary for the examination of any candidates for literary degrees, and they are hereby empowered and authorized to confer those degrees on such students as in their opinion shall merit the same in as ample a manner as any other college in America can do, and to grant testimonials thereof under their common seal, signed by the president and five of the trustees, at least; and that the president and trustees, or any seven of them, are hereby authorized and required to meet at said College, on some day to be appointed by the president, on or before the first day of October next, and then and there to elect and commission, under their common seal, such professors and masters as they shall judge necessary for the purpose of the institution. And that, in order to preserve in the minds of the students that sacred love and attachment which they should ever bear to the principles of the present glorious revolution, the greatest care and caution shall be used in electing such professors and masters, to the end that no person shall be so elected unless the uniform tenor of his conduct manifests to the world his sincere affection for the liberty and independence of the United States of America.

IV. *And be it further enacted*, That the president and trustees or any ten of them, shall elect by ballot a treasurer for the said College, who shall give bond and security, payable to the trustees and their successors, for the faithful discharge of the trust reposed

in them; and shall, when required by the corporation, render an account of all monies, goods, and other chattels, received and expended by him on account of and for the use of said College; and on failure or refusal so to do, shall be subject to the like proceedings as are prescribed by law in the case of sheriffs failing to account for and pay into the treasury the public taxes on their hands.

V. *And be it further enacted*, That the said trustees, or a majority of them, shall have power to remove, or suspend the president, or any or all of the masters, at any time, on cause shown, and to supply the vacancy occasioned by such removal from office; and upon the death, resignation, or refusal to act, of the president or any of the trustees, or when there shall be a vacancy in any of the professorships, it shall be lawful for the remaining trustees, or a majority of them, to supply the same by new elections. It shall also be lawful for the president, or, in case of death, resignation, or refusal in him to act, the professors and masters for the time being, or a majority of them, to call a meeting of the trustees when he or they (as the case may be) shall see cause so to do. *Provided, nevertheless*, That the president and trustees, before they enter upon the execution of the trust reposed in them by this Act, shall severally take the following oath or affirmation to be administered by a justice of the peace of the said county of Prince Edward, and by him certified to the court of the said county, there to be recorded; that is to say: "I, A. B., do swear (or affirm) that I will, to the best of my skill and judgment, faithfully and truly discharge the duties required of me by the 'Act for incorporating the Trustees of Hampden-Sydney,' without favor, affection or partiality. So help me God." And that the clerk of the said court, for entering the same, shall receive of the trustees the sum of one Spanish milled dollar.

#### Amendment to Charter

In accordance with actions taken by the Synod of Virginia in Harrisonburg, Va., December 4, 1918, and by the President and Board of Trustees of Hampden-Sidney College, in Richmond, Va., December 19, 1918, and January 9, 1919, the State Corpora-

tion Commission of the Commonwealth of Virginia on the fourteenth day of February, 1919, authorized certain modifications of the Charter as follows:

1. The number of Trustees of the "President and Trustees of Hampden-Sidney College" shall be changed so as to be twenty-five (25).

2. "The President and Trustees of Hampden-Sidney College" shall be transferred to the control of a Board of Trustees directly appointed by the Synod of Virginia. The following Trustees, as nominated by the Synod of Virginia, and their successors, shall constitute the Board of Trustees of the "President and Trustees of Hampden-Sidney College": Rev. F. T. McFaden, D. D., Hon. A. D. Watkins, Judge James L. Tredway, Rev. W. C. Campbell, D. D., and Hon. Peter Winston, M. D., for a term of one year; W. G. Dunnington, Esq., Paulus A. Irving, M. D., H. A. Stokes, Esq., Hon. F. B. Hutton, and A. B. Carrington, Esq., for a term of two years; Rev. W. W. Moore, D. D., Col. C. C. Lewis, Jr., J. Scott Parrish, Esq., Rev. J. B. Bittinger, D. D., and Alexander B. Dickinson, Esq., for a term of three years; Chas. A. Blanton, M. D., Hon. Don P. Halsey, Hon. Walter A. Watson, Hon. Harry R. Houston, and H. T. Holladay, Esq., for a term of four years; Rev. Ernest Thompson, D. D., Rev. W. H. T. Squires, D. D., Hon. E. Lee Trinkle, Rev. J. E. Booker, D. D., and W. H. Robertson, Esq., for a term of five years.

Any vacancy occurring in the Board of Trustees, either by reason of death, resignation, or the expiration of the term for which any Trustee shall be chosen, shall be filled by the Synod of Virginia. The successors of all Trustees, at the expiration of their respective terms, shall be elected for five years, and any vacancy occurring during the term of any Trustee shall be filled by the said Synod for the unexpired term of said Trustee.

The President of the College shall be *ex officio* a member of the Board of Trustees.

3. The Board shall be authorized to select a Finance Committee and any other committees that may be desired by the

Board of Trustees, the members of which may or may not be members of the Board of Trustees.

4. The officers for the first year shall be the following:

PAULUS A. IRVING.....*President*  
F. T. McFADEN.....*Secretary*  
A. W. McWHORTER.....*Treasurer*  
J. H. C. WINSTON.....*Curator*

HISTORICAL SUMMARY

---

*Opened as Hampden-Sydney Academy, January 1, 1776.*

*Incorporated as Hampden-Sydney College, May, 1783.*

*Under the presidency of Archibald Alexander (1797-1806), increased students and endowment.*

*Under Jonathan P. Cushing (1821-1835), life and growth.*

*Under Dr. Lewis W. Green (1848-1856), a prosperous era.*

*Under Dr. John M. P. Atkinson (1857-1883), the distractions of the Civil War, but an administration of vigor and success.*

*Under Dr. Richard McIlwaine (1883-1904), the McIlwaine Hall erected, the endowment increased, the system of scholarships extended, the curriculum broadened.*

The following institutions of learning were founded, or revived and reorganized, by men identified with Hampden-Sidney College:

WASHINGTON COLLEGE, Tennessee—Rev. Samuel Doak, D. D., 1795.

UNION COLLEGE, New York—First President, Rev. John Blair Smith, D. D., 1795.

TRANSYLVANIA UNIVERSITY, Kentucky—President, James Blythe, D. D.; Rev. David Rice, Rev. John Todd, Judge Caleb Wallace, Trustees of Hampden-Sidney College, 1798.

PRINCETON THEOLOGICAL SEMINARY—Rev. Archibald Alexander, D. D., LL. D., 1812.

KENTUCKY SEMINARY FOR YOUNG LADIES—Rev. James Blythe, D. D., 1818.

TUSCULUM COLLEGE, Tennessee—Rev. Samuel Doak, D. D., 1818.

FRANKLIN COLLEGE, out of which grew the University of Georgia, revived by Rev. Moses Waddell, 1818.

UNIVERSITY OF VIRGINIA—Through the joint efforts of Thomas Jefferson and Jos. C. Cabell, an alumnus of Hampden-Sidney College, 1825.

UNION THEOLOGICAL SEMINARY, Virginia—Rev. Moses Hoge, D. D., 1812; Rev. Jno. H. Rice, D. D., 1824.

AUSTIN COLLEGE, Texas—Rev. Daniel Baker, D. D., 1850.

"BAPTIST EDUCATIONAL SOCIETY," organized by Elder Edward Baptist, 1830. This Society developed into Richmond College, 1840.

THE MEDICAL COLLEGE OF VIRGINIA—Established under the charter and seal of Hampden-Sidney College, by Dr. Socrates Maupin and others, 1838.

MEDICAL SCHOOL OF RANDOLPH-MACON COLLEGE—John P. Mettauer, M. D., LL. D., 1837.

STEWART COLLEGE, out of which grew the Southwestern Presbyterian University, Rev. John B. Shearer, D. D., LL. D., 1870.

SHEPHERD COLLEGE, West Virginia—Professor Joseph McMurran, 1872.

CENTRAL UNIVERSITY, Kentucky—Revived and thoroughly reorganized by Rev. L. H. Blanton, D. D., LL. D., 1880.

AUSTIN THEOLOGICAL SEMINARY, Texas—Rev. R. L. Dabney, D. D., LL. D., 1884.

BELHAVEN COLLEGE, Jackson, Miss.—Rev. R. V. Lancaster, D. D., first President.

## LIST OF PRESIDENTS

|  |                                       |
|--|---------------------------------------|
| SAMUEL STANHOPE SMITH, D. D., LL. D.....   | 1775-1779                             |
| <i>(Afterwards President Princeton College, New Jersey.)</i>                               |                                       |
| JOHN BLAIR SMITH, D. D.....  | 1779-1789                             |
| <i>(Afterwards first President Union College, New York.)</i>                               |                                       |
| DRURY LACY, D. D. (Vice-President and Acting President) .....                              | 1789-1797                             |
| ARCHIBALD ALEXANDER, D. D., LL. D.....   | 1797-1806                             |
| <i>(Founder of Princeton Theological Seminary, Princeton, N. J.)</i>                       |                                       |
| WILLIAM S. REID, D. D. (Vice-President and Acting President) .....                         | 1807                                  |
| MOSES HOGE, D. D.....  | 1807-1820                             |
| MESSRS. M. LYLE, JAS. MORTON, WM. BERKELEY, JOHN MILLER, J. P. WILSON (Committee of Board) |                                       |

## ADMISSION TO COLLEGE

---

The candidate for admission should apply to the Dean of the College for a blank certificate of admission several weeks before the opening of the session, and should have the matter of entrance definitely settled before he leaves home. He must present from the school last attended a certificate, or other satisfactory proof, of good moral character; if from another college, he must bring a certificate of honorable dismissal. No student will be matriculated without his credentials.

Matriculation should begin on the Monday before College opens. Every student as soon as possible after arrival at College should confer with the proper Faculty Adviser. The Faculty Adviser helps the student arrange his course and gives him a signed card which entitles him to matriculate. This card is presented to the Financial Secretary, and after it has been countersigned by him is presented to each professor under whom the student has work.

## ENTRANCE BY CERTIFICATE

Students are admitted to the College either by examination, or by certificate from an accredited preparatory school. Students entering by certificate will be accredited to no class higher than Freshman.

The requirements for admission are stated in units. A unit is a recitation period of at least forty minutes, five times a week for thirty-six weeks, devoted to the completion of an assigned amount of subject matter of high school grade. The certificate must be specific on these points.

For admission to the Freshman Class 15 units are required. The entrance units prescribed for the B. A. degree are: English, 3; Latin, 2; Mathematics,  $2\frac{1}{2}$  (total,  $7\frac{1}{2}$ ); Elective,  $7\frac{1}{2}$ . Greek may be taken instead of Latin and begun in college. In this case the Latin units are not required.

The entrance units prescribed for the B. S. degree are: English, 3; \*Modern Language, 2; Mathematics,  $2\frac{1}{2}$  (total,  $7\frac{1}{2}$ ); Elective,  $7\frac{1}{2}$ .

### ENTRANCE BY EXAMINATION

An applicant unable to offer a satisfactory certificate from an accredited secondary school may enter by passing equivalent examinations. These examinations will be held at the College, and will begin Monday, September 12th, at 10:00 A. M., as indicated in the Calendar, page 3.

### ADVANCED STANDING

Collegiate credits will not be given on certificate for work done in high schools and academies. Matriculates presenting certificates from colleges on the 15-unit basis will be given full value for the work done in such colleges; applicants from colleges requiring less than 15 units for entrance will be given such credits as the Faculty may deem proper; others, desiring advanced standing, may take examinations on those subjects for which credit is sought. Examinations for advanced standing should be taken not later than the opening day of College. Students should consult with the professor under whom the examination is to be taken, either by letter or in person, before September 1.

### SPECIAL STUDENTS

Students desiring to pursue a particular line of study are permitted to take courses for which they are found prepared, subject, however, to the direction of the Faculty as to the amount of work required, which in all cases shall be equal to that of regular students. Such students must offer for College entrance a minimum of any seven complete units, and must be more than twenty years of age at the date of entrance. Bible I and II are required of all students.

---

\*A student having no Modern Language will be allowed to enter conditionally, if he has a total of 15 units.

## SYNOPSIS OF ENTRANCE REQUIREMENTS

| SUBJECTS                   | TOPICS   | UNITS       |
|----------------------------|--|-------------|
| English A.....             | English Grammar; 5 to 8 Classics (required)....                      | 1           |
| English B.....             | Composition and Rhetoric; 6 to 8 Classics (re-<br>quired) .....      | 1           |

\*A half unit will be allowed, if a half session, but not as much as a full session, has been spent on this subject.

## SCOPE OF ENTRANCE UNITS

---

### ENGLISH

#### Three Units Required

- A. ENGLISH GRAMMAR AND ANALYSIS with five classics chosen from the lists approved by the Southern Association.
- B. COMPOSITION AND RHETORIC with six classics chosen as above.
- C. HISTORY OF AMERICAN LITERATURE with seven classics.
- D. HISTORY OF ENGLISH LITERATURE with eight classics.

### FRENCH, GERMAN, SPANISH

For entrance to the first College classes in these languages one unit must be offered equivalent to the A-courses described on pages 57, 58, and 67. These A-courses are intended for students who have had no previous preparation in Modern Languages, and the successful completion of one of them admits the student to the first College class.

### HISTORY

The following courses may be offered for College entrance:

- A. Ancient History.
- B. Mediaeval and Modern History.
- C. English History.
- D. American History (including Civil Government).
- E. Bible History.

## LATIN

### Two Units Required

- A. Beginner's Latin Book, completed.
- B. First year's work reviewed, grammar and composition, four books of Caesar.
- C. Grammar, composition, six Orationes of Cicero. (The four Orationes against Catiline, that for Archias, and that for the Manilian Law.) A more varied reading, for example, selections from Ovid or Nepos, will be accepted instead of two orationes of Cicero.
- D. Vergil—six books with proper training in scansion and with satisfactory work in grammar, composition, and Roman History.

Advanced standing is granted only on the basis of an examination, held at the College by the professor, covering all courses on which credit is desired.

## MATHEMATICS

### Two and One-Half Units Required

A. ALGEBRA TO QUADRATICS.—The four fundamental operations for rational algebraic expressions; factoring, highest common factor and lowest common multiple by factoring; fractions, including complex fractions; numerical and literal linear equations containing one or more unknown quantities; problems depending upon linear equations; involution and evolution, including square root of polynomials and arithmetical numbers; exponents, including the zero, fractional and negative; radicals. (One unit.)

B. ALGEBRA FROM QUADRATICS THROUGH THE BINOMIAL THEOREM.—Quadratic equations, both numerical and literal, equations solved by the methods of quadratics, theory of quad-

ratios; ratio and proportion; variation; arithmetic and geometric progressions; binomial theorem for positive integral exponents.

C. PLANE GEOMETRY, WITH ORIGINAL EXERCISES.—The usual theorems and constructions of good text-books; the solution of numerous original theorems and numerical exercises, including loci problems. (One unit.)

D. SOLID GEOMETRY, WITH ORIGINAL EXERCISES.—The usual theorems and constructions of standard text-books and the solution of numerous original exercises. (One-half unit.)

E. PLANE TRIGONOMETRY.—Definitions and relations of the six trigonometric functions; proofs of principal formulas; trigonometric transformations; theory and use of logarithms; solution of right and oblique triangles with applications. (One-half unit.)

For admission to the Freshman Class a student must offer A, B, and C. The half units D and E are optional. A student offering either D or E, or both, is not entitled to advanced standing, nor is he exempt from taking any part of the Freshman course in Mathematics, but he should be better qualified to pursue that course with success than one who offers the minimum of two and one-half units.

Conditions will be allowed on B and C; but students deficient in Algebra (B) or in Plane Geometry must make up the work under a private tutor approved by the Professor of Mathematics, or otherwise, and must pass an examination on the subject before they are admitted to the Freshman Class in Mathematics.

## COURSE OF STUDY

---

### FRESHMAN CLASS

BIBLE I.—Two-thirds of the session is devoted to the Study of the Life of Christ and one-third to the Study of the Life of Paul. Robertson's Harmony of the Gospels; The Bible (The Book of Acts); Davis' Bible Dictionary. Three hours a week.

ENGLISH I.—Reed and Kellogg's Higher Lessons in English; Slater's Freshman Rhetoric; Scott and Zeitlin's College Readings in English Prose; Garland and Greever's Century Handbook of Writing. Three hours a week.

FRENCH I.—Grammar and Composition, Carnahan's Review Grammar; Pronunciation, Principal Rules of French Pronunciation, by Lancaster; Hugo's *Les Misérables*; Schinz's Selections from Guy de Maupassant; Jules Verne's "*Le Tour Du Monde*"; Augier's *Le Gendre de Monsieur Poirier*; Parallel Reading. Three hours a week.

GERMAN I.—Grammar and Composition; Storm's *Immensee*; Zschokke's *der Zerbrochene Krug*; Gerstacker's *Germelshausen*; Schiller's *Wilhelm Tell*; Hillern's *Höher als die Kirche*; Schiller's *Der Neffe als Onkel*; Sudermann's *Teja*; Parallel Reading. Three hours a week.

GREEK I.—Declensions, Conjugations, Sentence Structure, Daily Exercises. Ball's *The Elements of Greek*; Selections from the *Anabasis*. Three hours a week.

\*HISTORY I-A.—General European History. Hayes and Moon's Modern History; Bishop and Robinson's Map Exercises and Syllabus in European History. Parallel readings. Alternates with History I-B, and will be given in 1927-1928. Three hours a week.

\*HISTORY I-B.—Greek and Roman History. Textbooks to be announced. Parallel readings. Alternates with History I-A, and will not be given in 1927-1928.

LATIN I.—Grammar, Bennett; Latin Composition; easy prose; Nepos' Lives; Quintus Curtius Rufus, Selections; Ovid's Metamorphoses; 314 pages of Myers' Rome: Its Rise and Fall. Three hours a week.

MATHEMATICS I.—Solid Geometry, Wells and Hart, Review of Algebra, Unified Mathematics, text to be announced. Three hours a week.

SPANISH I.—De Vitis' Spanish Grammar; Ewart's Cuba y Las Costumbres Cubanas; Cornyn's Cuentos Mejicanos; Marmol's Amalia. Three hours a week.

### SOPHOMORE CLASS

BIBLE II.—The Old Testament—Historical books; the Bible (American revised version); Davis' Bible Dictionary; Skinner's Historical Connection between the Old and New Testaments. Three hours a week.

BIOLOGY I.—General Biology and Zoölogy. Needham's General Biology; Pratt's Invertebrate Zoölogy; Hegner's College Zoölogy. Three hours recitation and three hours laboratory a week. Four hours credit.

---

\*A student who has taken one of the History I's may not take the other as an elective.

CHEMISTRY I.—General Chemistry, Holmes; Laboratory Manual of General Chemistry, Holmes; Venable's Short History. Recitation three hours and laboratory three hours a week. Four hours credit.

ENGLISH II.—Moody and Lovett's History of English Literature (new edition); Snyder and Martin's A Book of English Literature. Studies in style and principles of literary criticism. Parallel reading, essays and papers throughout the year. Three hours a week.

FRENCH II.—Phonetics; Strachey's French Literature; Composition; Molière's *Le Misanthrope*; *Les Femmes Savantes* and *Le Tartuffe*; Hugo's *Notre Dame de Paris* and *Hernani*; Badaire's "Précis de Littérature Française"; Rostand's *Cyrano de Bergerac*; Daudet's *Lettres de Mon Moulin*. Three hours a week.

GERMAN II.—Grammar, Thomas's Practical; Riehl's *Der Fluch der Schönheit*; Schiller's *Thirty Years' War* (Third Book), and *Die Braut von Messina*; Lessing's *Minna von Barnhelm*, and *Nathan der Weise*; Goethe's *Sessenheim* and *Herman und Dorothea*; Hosmer's German Literature; Parallel. Three hours a week.

GREEK II.—Grammar; Prose Composition; Xenophon's *Anabasis*; Lysias. Three hours a week.

HISTORY II.—American History. Hockett and Schlesinger, *Political and Social History of the United States*, Volumes I and II. Papers and parallel readings. Three hours a week.

LATIN II.—Grammar, Bennett; Latin Composition, Baker & Inglis; Sallust's *Catiline*; Livy; Horace's *Satires*; Myers' *Rome* (completed). Three hours a week.

MATHEMATICS II.—Passano's *Plane and Spherical Trigonometry*; Nichols' *Analytic Geometry*. Three hours a week.

PHYSICS I.—Elements of Applied Physics, A. W. Smith. Three hours a week.

SPANISH II.—Ramsey's Spanish Grammar; Ibañez's *La Barraca*; Alarcon's *El Sombrero de Tres Picos*; Galdos' *Doña Perfecta*; Varied Readings of Spanish Authors in class or as parallel; Spanish Literature—text-book and lecture. Three hours a week.

### JUNIOR CLASS

GREEK III.—Homer; Euripides; Plato. Three hours a week.

LATIN III.—Grammar, Gildersleeve-Lodge; Horace's Odes and Epodes with the study of lyric meters; Plautus; Tacitus' *Agricola* and *Germania*; Private Life of the Romans, Johnson; Bradley's Arnold's Latin Prose Composition. Three hours a week.

POLITICAL SCIENCE.—A general course in government. Gettell, *History of Political Thought*. Munro, *Government of the United States*. Parallel readings. Three hours a week.

PSYCHOLOGY II.—General Psychology. Woodworth's Psychology; Poffenberger's *Laboratory Manual of Experimental Psychology*. Parallel readings and reports. Three hours recitation and lecture, and three hours laboratory. Four hours credit.

### SENIOR CLASS

ECONOMICS.—Ely's *Outlines of Economics*; A Detailed Study of Special Topics; Additional text-books to be announced. Three hours a week.

PHILOSOPHY I.—Cunningham's *Text-book of Logic*; Introduction to Philosophy by Patrick or Brightman; selected readings in Ethics. Three hours a week.

## ELECTIVE COURSES

---

ASTRONOMY.—Elements of Astronomy, Young. Two hours a week.

BIBLE III.—Book Studies in the Bible. The Bible (American revised version). Outlines, Commentaries, and Expositions. Alternates with Bible IV. will be given in 1927-1928. Two hours a week.

BIBLE IV.—Evidences of Christianity. Lectures; Parallel Readings. Text-books to be announced. Alternates with Bible III, and will not be given in 1927-1928. Two hours a week.

BIBLE V.—Christian Doctrine. Hodge's Commentary on the Confession of Faith. One hour a week.

BIOLOGY II.—Vertebrate Zoölogy and Embryology. One hour recitation and a minimum of five hours laboratory a week. Hegner's College Zoölogy, Pratt's Vertebrate Zoölogy. Reference works. Three hours credit.

BIOLOGY III.—Botany.—Holman and Robbins' General Botany. Two hours recitation and two hours laboratory work a week. Three hours credit.

CHEMISTRY II.—Qualitative Analysis. Volhard and Zimmermann (Stiegleitz); The Elements of Qualitative Chemical Analysis (Parts III and IV). Laboratory. Five hours a week. Two hours credit.

CHEMISTRY III.—Remsen's Organic Chemistry. Two hours a week.

CHEMISTRY IV.—Orndorff's Laboratory Manual. Laboratory. Three hours a week. One hour credit.

CHEMISTRY V.—Moore's History of Chemistry; Lowry's Historical Introduction to Chemistry. Two hours a week.

\*EDUCATION I.—Texts to be announced. Two hours a week.

\*EDUCATION II.—Texts to be announced. One hour a week.

\*ENGLISH III. — First Term—The Plays of Shakespeare (Arden, Globe, or Rolfe edition); Dowden's Primer; Lee's Life of Shakespeare; Shepard's Shakespeare Questions. Lectures, parallel readings, reports. Second Term—The Modern Realistic Novel. Standard editions. Lectures, parallel readings, reports, essays. The Modern Movement in Poetry. Standard editions. Lectures, criticisms, interpretations, parallel readings, reports. Three hours a week.

FRENCH III.—Vreeland and Michaud's "Anthology of French Prose and Poetry"; Anderson's "Illustrations of Early French Literature." Parallel Readings. Three hours a week.

\*GEOLOGY.—Dana's Elements of Geology. Two hours a week.

GREEK IV-A.—Selected plays of Aeschylus, Euripides and Aristophanes; selections from Thucydides. Study of Greek Drama. Three hours a week.

GREEK IV-B.—Selected portions of Greek Testament and study of Hellenistic Greek. Three hours a week.

HISTORY III.—Colonial American. Lectures. Library readings. Three hours a week.

LATIN IV.—Grammar, Gildersleeve-Lodge; Prose Composition; Tacitus; Juvenal; Terence; Plautus; MacKail's Latin Literature. Three hours a week.

---

\*Elective for Juniors and Seniors only.

LATIN V.—A class for prospective teachers. Caesar, Cicero, Vergil; Prose Composition; Private Life and Antiquities; Lectures on Methods and Practice in Teaching Latin. Open only to seniors who have completed Latin II. Three hours a week.

MATHEMATICS III.—Analytic Geometry and Calculus; Nichols' Analytic Geometry; Nichols' Differential and Integral Calculus. Three hours a week.

MATHEMATICS IV.—Differential and Integral Calculus; Nichols' Differential and Integral Calculus. Three hours a week.

MATHEMATICS V.—Descriptive Geometry and Surveying; Ames and Wischmeyer's Descriptive Geometry. Text in surveying to be announced. Three hours a week.

PHILOSOPHY II.—The History of Philosophy by Weber and Perry. Selected Reading. Three hours a week.

PHYSICS II.—Laboratory Work in Physics; Millikan and Gale's Laboratory Course in Physics. Three hours a week. (One hour credit.)

PHYSICS III.—Principles of Electrical Engineering, Timbie & Bush. Three hours a week.

†PSYCHOLOGY I.—Ewer's Applied Psychology. Selected readings in the Psychology of Personality. Two hours a week.

---

†Elective for Sophomores, Juniors and Seniors.

## TABULATION OF REQUIREMENTS FOR DEGREES

## Prescribed for the B. A. Degree—

|   |   |
|---|---|
| Bible I, II .....                               | 6 |
| English I, II .....                             | 6 |
| Mathematics I .....                             | 3 |
| Philosophy I .....                              | 3 |
| Psychology II .....                             | 4 |
| and either                                      |   |
| History I-A, or I-B, or II .....                | 3 |
| Economics, or Political Science .....           | 3 |
| and two of the following sciences:              |   |
| Biology I .....                                 | 4 |
| Chemistry I .....                               | 4 |
| Physics I .....                                 | 3 |
| and one of the following combinations:          |   |
| (a) Latin I, II, and III .....                  | 9 |
| Greek I, II .....                               | 6 |
| or  |   |
| (b) Greek I, II, III .....                      | 9 |
| Latin I, II .....                               | 6 |
| or  |   |
| (c) Latin I, II, III, or Greek I, II, III ..... | 9 |
| and two of the following modern languages:      |   |
| French I, II .....                              | 6 |
| German I, II .....                              | 6 |
| Spanish I, II .....                             | 6 |
| and Electives to sum up 62 hours.               |   |

## Prescribed for the B. S. Degree—

|  |   |
|--|---|
| Bible I, II .....                          | 6 |
| Biology I .....                            | 4 |
| Chemistry I .....                          | 4 |

## Pre-Medical Course—

## First Year :

Bible I  
Biology I  
Chemistry I  
English I  
Mathematics I

## Second Year :

Bible II  
Biology II  
Chemistry II, III and IV  
Physics I and II

Some Medical Colleges require two years of a modern language. The student is advised to ascertain whether this is the case with the Medical College of his choice; and if so, to add a modern language to the subjects prescribed above.

## Pre-Pharmacy Course—

## First Year :

Bible I  
Biology I  
Chemistry I  
English I  
Mathematics I

## Second Year :

Bible II  
Chemistry II, III and IV  
English II  
Physics I and II

For the B. A. or B. S. degree, a candidate must complete, together with the prescribed work, enough elective courses to aggregate sixty-two hours of credit. A minimum of seventy-four hours of credit is required of a student who wishes to take both degrees. Two degrees will not be awarded, however, in the same year except to one who failed to graduate with his class.

In lieu of the two speeches formerly required of all degree candidates one year's work in one of the Literary Societies is required of all such candidates.

Laboratory Periods: 3:00 to 6:00 P. M.

CHEMISTRY, Monday and Tuesday; PHYSICS, Tuesday and Thursday; BIOLOGY, Wednesday and Thursday; PSYCHOLOGY, Friday.

The College Library is open to students every afternoon from 3 to 5, and from 7 to 9 at night.

## ☆ OUTLINE OF WORK IN THE SEVERAL DEPARTMENTS

---

### ASTRONOMY

PROFESSOR BAGBY

GENERAL ASTRONOMY. (Credit, 2 hours.)

The first months are devoted to a careful study of the geometry of the sphere as essential to the proper understanding of the astronomical methods of determining the location, distance and motions of the heavenly bodies; the members of the solar system and the bodies in the outer region of space are then successively taken up and their motions, physical features and constitution considered. Throughout the course the mathematical and physical laws by which the astronomer is guided to his conclusions and the logical development of the reasoning resulting in these conclusions are the objects of attention, the mere rehearsal of facts being deemed of secondary importance.

Only such students as have completed Physics I, and Mathematics I and II, are allowed to enter this course.

### BIBLE

PROFESSOR MASSEY

The purpose of the work in this department is: (1) to lead the individual student into a Christian experience, (2) to give him a working knowledge of the factual contents of the Bible, (3) to inspire him with a love for the study of the Bible, (4) to acquaint him with the best methods of Bible study. The Bible is the chief text-book, and the student is encouraged to study the Bible without

---

\*The courses will generally be given as outlined, but every professor reserves the right to modify his courses at will.

helps and for his own personal profit. As a part of the work of the first two years the student is required to prepare analyses and paraphrases of some of the greater passages of the Bible.

**BIBLE I. (Credit, 3 hours.)**

The year is devoted to a careful study of the life of Christ and the life of Paul. Required of all first year students.

**BIBLE II. (Credit, 3 hours.)**

A careful study of the historical portions of the Old Testament, tracing the development of the Divine plan in the history of the Israelitish people, and culminating in the coming of the Messiah. During the latter part of the course as much attention as time will permit is given to the history between the close of the Old Testament and the coming of Jesus Christ. Required of all second year students.

In both BIBLE I and II considerable attention is given to Bible Geography.

**BIBLE III. (Credit, 2 hours.)**

Book Studies in the Bible. Some of the Prophecies of the Old Testament and some of Paul's Epistles are studied according to the Book Method. This course alternates with Bible IV, and is elective for Juniors and Seniors. It will be given in 1927-1928.

**BIBLE IV. (Credit, 2 hours.)**

Evidences of Christianity. The course opens with a survey of the teachings of the Scriptures with reference to such fundamental doctrines as: the Existence of God, the Plenary Inspiration of the Scriptures, the Deity of Christ, Substitutionary Atonement, and the Bodily Resurrection of Christ. In connection with the study of these subjects the student is furnished with the positive arguments in favor of Christianity. Following this the various philosophical theories that attempt to account for the origin of the universe and of man are studied and criticized. This course alternates with Bible III, and is elective for Juniors and Seniors. It will not be given in 1927-1928.

## BIBLE V. (Credit, 1 hour.)

Christian Doctrine. The work of this course is designed to furnish the student with a knowledge of the fundamental doctrines of the Christian religion, to equip him for active Christian service, and to answer as far as possible any theological questions about which he might be perplexed. The text used is Hodge's Commentary on the Confession of Faith, and the doctrines are studied in the order laid down there. Elective for Juniors and Seniors.

## BIOLOGY

PROFESSOR OVERCASH.

## BIOLOGY I. (Credit, 4 hours.)

General Biology and Invertebrate Zoölogy. This course is designed to acquaint the student with the fundamental generalizations that are the product of modern research in Biology. Comparative morphology, physiology, and ecology of animal and plant life are illustrated by a detailed study of types of several groups. Attention is paid to the grouping of forms and to comparison of these groups. Laboratory work follows the class work and gives the student first hand knowledge of the objects of his study. Exactness and method in observation, care in the handling of material, and neatness in keeping notebooks will receive special emphasis.

Students will furnish their own notebooks and dissecting sets. Laboratory fee, \$7; breakage deposit, \$2.

## BIOLOGY II. (Credit, 3 hours.)

Vertebrate Zoölogy and Embryology. This course is largely laboratory work. Types of Vertebrates will be studied in detail in an effort to obtain both a knowledge of the comparative anatomy of the vertebrates and the ability to dissect in an intelligent manner. Notebooks will be kept to show the accomplishment of each

student. The class meetings will be for discussion of laboratory work and for written lessons and assignments.

This course is intended primarily for students who expect to study medicine, but is also valuable for those who will do advanced work in Biology. Elective for those who have completed Biology I.

Laboratory fee, \$10; breakage deposit, \$2.

BIOLOGY III. (Credit, 3 hours.)

BOTANY. The morphology, physiology and ecology of plants will be the subject matter in this course. The forms of a comparatively few plants will be studied and these will be used to help in acquiring a working knowledge of others. The general principles of Physiology will be studied and applied. Ecology is studied with the special purpose of opening the eyes of the student to many of the things about him which have never received his attention and which are very interesting. Elective for those who have completed Biology I.

Laboratory fee, \$10; breakage, \$2.

While Biology II and III are both elective they should not be taken the same year.

## CHEMISTRY

PROFESSOR WINSTON

CHEMISTRY I. (Credit, 4 hours.)

Inorganic Chemistry. In this course theoretical and descriptive inorganic chemistry is presented. The fundamental ideas of chemical science, the laws governing chemical change, the elements and their principal compounds are systematically brought forward with frequent allusion to the application of chemical principles in the arts, manufactures, and medicine. Instruction is given by lecture and recitation. The laboratory work is designed to go hand in hand with the class work, illustrating the lectures, and supplementing the experiments of the classroom. Laboratory fee, \$7; breakage deposit, \$1.

## CHEMISTRY II. (Credit, 2 hours.)

Qualitative Analysis. In this course the whole of the allotted time is spent in the laboratory, the course being planned to give a more thorough knowledge of chemical phenomena than is given in the first year, and to make of the careful worker a capable analyst. Typical compounds are first taken up and their characteristic reactions studied; the subject of qualitative analysis which follows becomes thus comprehensible and assimilable. The student is drilled in the analysis of unknown solutions, mixtures of salts, alloys, ores, etc. The work is carefully supervised and assistance is given whenever necessary. Elective for students who have completed Course I. Laboratory fee, \$10; breakage deposit, \$2.

## CHEMISTRY III. (Credit, 2 hours.)

Organic Chemistry. This course was introduced for three classes of students—those intending subsequently to pursue the study of medicine, those wishing to specialize in chemistry, and those who, interested in the laws of inorganic chemistry, desire to study their truer applications to the organic science. General relations are emphasized and illustrated by special cases of importance, while the relatively large number of compounds of minor import is rapidly surveyed. Elective for same students as Course II. Fee, \$5.

## CHEMISTRY IV. (Credit, 1 hour.)

Preparation of Organic Compounds. Throughout the session three hours a week are spent in making many of the important compounds of carbon according to commercial and purely scientific methods. Special stress is laid on the development of proper laboratory technique. Weekly notes are written on the work accomplished. Elective for students pursuing Course III. Laboratory fee, \$15; breakage deposit, \$2.

**CHEMISTRY V. (Credit, 2 hours.)**

History of Chemistry. This course may be taken with profit only by Seniors specializing in Chemistry, and hence familiar with its more important facts and principles. The course deals with the origin and philosophical basis of the fundamental ideas of the science, the critical periods in their development, and the personalities of the great men whose efforts have contributed to that development. At no period has the development of Chemistry been more rapid or interesting than it is to-day; a comprehension of the past will give the student a fuller appreciation of the significance of the development of the present and of the future. Elective for students pursuing Course II or III.

**ECONOMICS**

PROFESSOR HART

**GENERAL ECONOMICS. (Credit, 3 hours.)**

The purpose of this course is two-fold: first to familiarize the student with the basic principles of business as a social science, and secondly to provide a detailed knowledge of economic problems that are of particular importance today, such as banking reform, the tariff, trusts, and labor legislation. This will provide a sound basis for further study in the field of economics or business administration, and will also give a sane and intelligent outlook upon the complex economic life of the present day. Open only to Juniors and Seniors.

**EDUCATION**

PROFESSOR ALLAN

**EDUCATION I. (Credit, 2 hours.)**

A fundamental course in social and individual psychology as applicable to Education. Instinct, the emotions, the laws of learning, intelligence and its testing, group behavior, motivation and morale will be the chief topics studied. This course is the equivalent of Psychology I when the student electing the latter

course makes the applications to Education his special study. Credit will be assigned accordingly. Open only to Junior and Seniors.

EDUCATION II. (Credit, 1 hour.)

A study of the more technical problems of Education such as individual differences, educational measurements, teaching methods and class-room management in the light of Psychology. The problems of secondary education will be emphasized. Open only to Juniors and Seniors.

## ENGLISH

PROFESSOR WATKINS

In the department of English two objects are kept steadily in view: (1) to give the student such mastery of the language as will enable him to write and speak not only with correctness and accuracy, but also with some degree of ease and grace; (2) by acquainting him directly with the great masterpieces of English and American literature, to cultivate in him a taste for good reading, and to help him develop more highly a sense of literary appreciation, as well as the faculty of constructive and creative thinking.

ENGLISH I. (Credit, 3 hours.)

Introductory courses in English and American literature are pre-supposed for this class and in no case is high school work to be regarded as an equivalent of work done in college. Students preparing for college entrance should be especially drilled in the mechanics of composition, spelling, punctuation, grammar, sentence structure, paragraphing, etc. In their written work they must be able to express themselves in clear, correct, and orderly English, or they will find it impossible to keep up with the requirements of the course.

The work of this class is devoted partly to the study and practical application of the more advanced principles of Composition and Rhetoric, and partly to the study of American Literature and selections from standard English Prose. Many

essays are written, parallel reading is required, and careful training is given in the art of interpreting literary thought and expression.

ENGLISH II. (Credit, 3 hours.)

The History of English Literature. A study of the development of English Literature to the present time. Special attention is paid to the development of the drama, the novel and the essay. Representative selections are examined both historically and critically.

The principles of literary criticism are constantly brought into practice and the student is everywhere encouraged to think and form judgments for himself. Essays, based on the work of the class, and parallel readings with outlines and appreciations are required.

ENGLISH III. (Credit, 3 hours.)

First term, Shakespeare. Three plays are carefully studied in class with the aim of making clear, first obscure words and passages, second the larger significance and the power of the play. Meanwhile many other plays are assigned in rapid succession for reading and reports. The life of the author, the development of his genius as a playwright, and the sources of his plays are also studied.

Second term, Modernism in the Novel and in Poetry. A rapid survey is made of the outstanding exponents for the past twenty-five years of realism in the novel. Several important novels are reviewed in class and certain modern tendencies are pointed out. After the same manner the modern movement in poetry is then taken up. The more prominent of modern poets and some of the tendencies in the present revival of poetry-writing are studied. Lectures, criticisms, interpretations, reviews, reports, parallel readings. Elective only for Juniors and Seniors.

**FRENCH**

PROFESSOR ROBERTS

**FRENCH A. (No college credit.)**

This class is for beginners and such students as are not sufficiently prepared to enter French I. The course comprises the study of the elements of grammar, composition, and pronunciation, and about 200 pages of literature from such texts as Montvert's *La Belle France* and Labiche's *Le Voyage de Monsieur Perrichon*. Emphasis is placed upon correct pronunciation and the class is gradually brought to the use of French in the class-room.

The college course in French embraces three years, the work being apportioned as follows:

**FRENCH I. (Credit, 3 hours.)**

This class will spend one hour a week in the review of grammar and will be given weekly composition. Thorough study of the irregular verbs in general use will be made. About 600 pages from Hugo, Loti, Maupassant, Augier and other such writers will be read and discussed in class or read as parallel. Much emphasis is laid on the study of phonetics and constant drill is given in this subject.

**FRENCH II. (Credit, 3 hours.)**

A part of the year will be devoted to the study of phonetics and a review of the advanced principles of grammar. Exercises in prose composition will be given each week. Selected texts from such representative authors as Balzac, Rostand, Daudet, Hugo and Molière will be read and carefully interpreted. Parallel from these authors will be required. During the latter part of the year the History of French Literature will be studied in outline. This class is conducted in French and students are expected and encouraged to use French exclusively in the class-room.

## FRENCH III. (Credit 3 hours.)

An advanced course which affords students an opportunity both to become acquainted with a great number of literary masterpieces that France has produced since the sixteenth century, and also to form some idea of the History of French Literature. Open to students who have completed French II or the equivalent.

## GEOLOGY

PROFESSOR WINSTON

## GENERAL GEOLOGY. (Credit, 2 hours.)

Physiographic, structural, dynamical, and historical geology are studied in the order named. The value of fossils in determining horizons is explained; a detailed study of the formations in this country is made with reference to those of other countries wherever necessary. Special stress is laid on the phylogenetic relations of the leading groups, which are traced out in considerable detail wherever possible.

## GERMAN

PROFESSOR WILSON

## GERMAN A. (No college credit.)

The work of this class is elementary, but the drills on the rudiments are constant and thorough. The course embraces the elements of grammar, composition and pronunciation, and the translation of 150 or more pages of literature.

## GERMAN I. (Credit, 3 hours.)

In this class about 600 pages of literature will be translated, in addition to the study of syntax and composition.

## GERMAN II. (Credit, 3 hours.)

This class will translate about 700 pages of literature, in addition to the grammar and composition work and the study of the history of German Literature.

**GREEK**

PROFESSOR WILSON

The Greek Department has for its objective a three-fold purpose; first, the reading and appreciation of as much of the original language as is possible; second, the acquiring of a more thorough knowledge of the English language through comparison; third, the development of a habit of accurateness and thoroughness to which the study of Greek so easily lends itself.

## GREEK I. (Credit, 3 hours.)

This course takes up the study of Greek from the beginning and carefully drills on forms, vocabulary, and syntax throughout the year. There are daily exercises in translating both from Greek into English and from English into Greek. During the last part of the year Xenophon's *Anabasis* will be begun and as much of Book I will be read as is possible.

## GREEK II. (Credit, 3 hours.)

The emphasis of this course will be placed upon the acquiring of a thorough working knowledge of Greek syntax. This will be accomplished through a close study of the grammar involved in the reading and by continued practice in prose composition. Forms will of necessity be reviewed. Xenophon's *Anabasis* will be continued and several orations of Lysias will be studied.

## GREEK III. (Credit, 3 hours.)

The object of this course is to acquaint the student with at least three Greek authors. During the session 1927-1928 a part of Homer's *Iliad*, a play of Euripides, and one or more of the dialogues of Plato will be read. Grammar will be subordinated to rapid reading. In order that the field of Greek literature may be

more completely understood, the reading will be supplemented by a brief study of Greek History and Greek Literature with the reading of standard translations of certain classics. This will involve both class-room and outside work with oral and written reviews and reports.

GREEK IV-A. (Credit, 3 hours.)

At least two of the tragedies of Aeschylus, Sophocles, and Euripides and one or more of the plays of Aristophanes will be read, together with supplementary reading in Thucydides' History of the Peloponnesian War and a brief study of Greek drama.

GREEK IV-B. (Credit, 3 hours.)

This course will be devoted to a study of the Greek New Testament. At least one of the Gospels will be read with comparison of the others to it. The Acts will be read together with such portions of the Epistles as are necessary to supplement it.

Greek IV-A, and IV-B will not be given the same year.

## HISTORY

PROFESSOR HART

HISTORY I-A. (Credit, 3 hours.)

European. This course deals with the history of Europe from the Christianization of the Roman Empire to the present. A considerable amount of work is required in addition to the assignments in the text book, and is supplied in part by lectures and in part by extensive library readings. This course alternates with History I-B, and will be given in 1927-1928. This class is not open to Juniors and Seniors.

HISTORY I-B. (Credit, 3 hours.)

Greek and Roman. This course is designed to give the student a general knowledge of the ancient classical period and thus a fuller appreciation of the many references to the ancient classics in modern literature. The influence of mythology on the Greeks of

the historic period will be noted. The contributions of ancient Greece to modern civilization and government will receive chief attention. For the Roman part of the course, mythology, the republic, conquests, the empire and the causes of its decline will be emphasized. This course alternates with History I-A, and will not be given in 1927-1928. This class is not open to Juniors and Seniors.

#### HISTORY II. (Credit, 3 hours.)

American. The entire field of United States history is covered in this course. The intelligent use of maps in connection with the study of history is considered very important and much work of this nature is required of the student in this course. Frequent reports, either in writing or for oral presentation before the class, are made on special topics. Much latitude is allowed the student in his choice of topics and readings. This class is not open to first-year students.

#### HISTORY III. (Credit, 3 hours.)

American Colonial. The host of events and rapid developments of the last few decades have tended to warp the perspective of Colonial America. This course is planned to emphasize the importance of Colonial happenings and at the same time introduce the interested student to historical methods. Opportunity will be given the students to study local phases of the Colonial Period. Emphasis will be placed on the Revolution and its aftermath. This class is open only to upper classmen who have done efficient work in History II.

### LATIN

PROFESSOR WHITING

#### LATIN I. (Credit, 3 hours.)

Applicants for the Freshman Class must present at least two units of high school work for admission. The work of this class, besides grammar and exercise, will include the reading of Nepos'

Lives, easy selections from prose authors, and possibly a portion of Ovid's *Metamorphoses*. The work in History will cover about half of Myers' *Rome*.

LATIN II. (Credit, 3 hours.)

This class will carefully review forms and syntax, will complete Bennett's *Latin Grammar*, will use Baker and Inglis' *Latin Composition*, will complete Myers' *Rome* (beginning at the Empire), and will read Sallust's *Catiline* (or *Jugurtha*), Livy, and one book of Horace's *Satires*.

LATIN III. (Credit, 3 hours.)

In this class, Horace, Tacitus and Plautus will be the authors read. Proper attention will be given to the lyric meters of Horace. The Gildersleeve-Lodge grammar will be used as the basis for the syntactical work and weekly exercises will be required throughout the session. Johnson's *Private Life of the Romans* will be read as parallel.

LATIN IV. (Credit, 3 hours.)

Tacitus, Juvenal, Plautus, and Terence, with review and supplementary work in class, or as parallel, will constitute the reading of this class. In grammar, Gildersleeve-Lodge is the textbook, explained and amplified, when necessary, by the notes of the professor. Weekly exercises, intended to illustrate the nicer points of classic usage, will be assigned. MacKail's *Latin Literature* will be studied in class.

LATIN V. (Credit, 3 hours.)

This is a training class for prospective teachers of Latin. Theory and practice will be combined. The principles of Pedagogy will receive attention and will be applied in the solution of the problems of the class-room. The full high school course in Latin will be studied so fully and thoroughly that the young teacher should feel no hesitancy about undertaking the direction of the Latin course in any preparatory school. Some time will be devoted to Roman Life and Antiquities. This class is open only to Seniors who have completed Latin II.

**MATHEMATICS**

PROFESSOR REED

ASSISTANT PROFESSOR WIDENER

**MATHEMATICS I. (Credit, 3 hours.)**

The work of the year is divided between Solid Geometry and a brief course in elementary analysis. The course in analysis consists of a review of the fundamentals of Algebra, and a simple presentation of the elements of Trigonometry and Coördinate Geometry.

**MATHEMATICS II. (Credit, 3 hours.)**

Plane Trigonometry and Analytic Geometry. In Trigonometry both the practical and the analytical aspects of the subject are emphasized. The work in analytic geometry reviews the fundamental principles of coördinate representation, considers the relation between the curve and its equation, and concludes with a more detailed study of the straight line, the circle, and the parabola.

**MATHEMATICS III. (Credit, 3 hours.)**

Analytic Geometry and Calculus. The first part of this course is a continuation of the Analytic Geometry of the preceding course, and gives the student a working knowledge of all the more important general methods and acquaints him with the leading properties of the conic sections. This is followed by an introductory course in Calculus, in which stress is laid upon the clear conception of the method of the Calculus; and the method is illustrated by its application to the solution of various problems in Geometry, Algebra, and Mechanics.

**MATHEMATICS IV. (Credit, 3 hours.)**

This course covers in detail Differential and Integral Calculus as it is usually presented in undergraduate courses, and includes a brief treatment of the easier forms of differential equations. Problems of historic interest are introduced from time to time and briefly discussed.

**MATHEMATICS V. (Credit, 3 hours.)**

**Descriptive Geometry and Plane Surveying.** This course is planned for those who contemplate a course in engineering to follow their College course. In Descriptive Geometry the general principles and methods are carefully studied, and many illustrative problems are solved. The course in Surveying includes the general theory of compass and transit surveying, and levelling, and the solution of the fundamental problems connected with each topic. Considerable time is given to the field work, and the student is made familiar with the adjustment of the instruments and their use in securing data for calculating areas, and inaccessible heights and distances. Students taking this course will find it necessary to purchase drawing materials and instruments costing from \$10 to \$20. The course is open only to those who have completed Mathematics II.

**PHILOSOPHY**

PROFESSOR ALLAN

**PHILOSOPHY I. (Credit, 3 hours.)**

The course opens with a preparatory study of Deductive Logic and modern scientific method. Emphasis is laid here on practical applications and training in exact thinking. This is followed by Metaphysics which aims to study critically and constructively the main problems of Life, Mind, and Reality, such as Monism and Pluralism, Mind and Body, Teleology, Evil and Freedom. The rival solutions of Materialism, Idealism, Pragmatism, and Realism will be compared and weighed. The last part of the course is Ethics, the purpose of which is to examine the main theories of right and wrong that have been developed in human thought and

tested out in human experience. The Christian Ethics will form a center of reference. The great moral problems as they confront the present age will be carefully studied, with a view to finding the best solutions. The purpose of the course throughout is to cultivate in the student critical appreciation and clear, independent thinking. Open only to Juniors and Seniors.

PHILOSOPHY II. (Credit, 3 hours.)

Problems of the great philosophers, past and present. A survey of the great systems of thought from Plato to Bergson, and the outstanding reflective problems as seen through the eyes of the great thinkers in their connected sequence. This will be followed by a critical study of present tendencies in philosophy and scientific thought. Among other movements, the theory of Evolution and its influence upon modern life and thinking will be carefully analysed. Personal acquaintance with the great thinkers and free class discussion will be encouraged throughout. Senior elective.

PHYSICS

PROFESSOR BAGBY

PHYSICS I. (Credit, 3 hours.)

This course is designed as an introduction to the study of General Physics; the more important phenomena of Mechanics, Sound, Light, Heat, Electricity, and Magnetism are successively considered and copiously illustrated by experiment on the lecture table, and the conspicuous part played by physical principles in modern civilized arts is pointed out and exhibited wherever possible. With a view to laying a broad and firm foundation for advanced work in Physics, the fundamental importance of mechanical principles as the proper basis of theory in the other branches of the subject is emphasized: the principle of the conservation of energy, the nature and motion of molecules, the progress and interaction of waves, the principles of syntony, are kept before the student's attention, and the work of the year is used to exemplify and enforce the broad sweep and paramount value of these general laws. Prerequisite, Mathematics I. Laboratory fee, \$5.

**PHYSICS II. (Credit, 1 hour.)**

This course comprises some forty simple quantitative exercises in the Mechanics of Solids, Liquids and Gases, in Sound, Light, Heat, Electricity and Magnetism, paralleling the lecture course offered in Physics I. The work of this class is designed to give to the student a more detailed knowledge of the construction and use of various forms of physical apparatus, to train him in the proper handling of such apparatus, to enhance his powers of close and accurate observation, and to teach him to treat the measurements made so as to determine from them the logical relation between the quantities involved, the physical law of which the exercise is an illustration. Laboratory fee, \$5; breakage deposit, \$2.

**PHYSICS III. (Credit, 3 hours.)**

This course covers an elementary, but detailed, study of the mathematical principles of Electricity and Magnetism. The course is designed as an introduction to the study of advanced Electricity or of Electrical Engineering; the last term is devoted to a somewhat detailed study of the direct current generator. Prerequisite, Physics I and Mathematics III.

**POLITICAL SCIENCE**

PROFESSOR HART

**POLITICAL SCIENCE. (Credit, 3 hours.)**

An introduction to the study of government that embraces its origins and its practices along with its developments and failures. The first part of the course is given to a survey of the political, social, and religious forces that have contributed directly or indirectly to the governmental ideal of the United States as represented in our basic political documents. The second part is devoted to present day problems and practices of government in the United States. Open only to Juniors and Seniors.

**PSYCHOLOGY**

PROFESSOR ALLAN

**PSYCHOLOGY I. (Credit, 2 hours.)**

The Psychology of Personality. A study of human personality in action from the standpoint of social and abnormal psychology. The principal topics of discussion will be: the instinctive foundations of personality; the emotions and their re-adjustments; the integration of motives; suggestion and the subconscious; social interaction and crowd phenomena; the traits of personality and their measurement; the training of the will and mental hygiene. Applications to the various professions will receive attention. Elective for Sophomores, Juniors and Seniors.

**PSYCHOLOGY II. (Credit, 4 hours.)**

General Psychology. A concrete study of the fundamental facts and laws of the mental life, conscious, subconscious and physiological. The nervous system, instincts, emotions, action, memory, the learning process, habits, the will, personality and the relation of heredity to environment will form the main topics. The relation of Body and Mind will be carefully considered throughout. The course is designed to be as practical as possible and to lay a sound psychological foundation for the study of the social sciences, education, medicine, etc., as well as for the understanding of human nature in general. Some training in introspection and experimental work will be afforded. Laboratory fee, \$3. This class is open only to Juniors and Seniors.

**SPANISH**

PROFESSOR NININGER

**SPANISH A. (No college credit.)**

This is a class for beginners. A previous study of Latin or French will be very helpful and will greatly increase the chances of success.

The essential elements of the Grammar will be studied; drill in pronunciation will be emphasized; weekly dictation will be given; exercises of progressive length and difficulty will be written and discussed; translation will be commenced as soon as possible and about 300 pages will be read during the session, either in class or as parallel. Two hours a week.

SPANISH I. (Credit, 3 hours.)

This class is open to those who have completed Spanish A; or, to those who have had a good preparatory course in high school. The grammar will be carefully reviewed; composition will be emphasized; as far as possible conversation in Spanish will be encouraged; and a goodly quantity of Spanish literature will be read.

SPANISH II. (Credit, 3 hours.)

Advanced grammar and composition work will be continued. Further proficiency in conversation will be attained. The reading will include the works of some of the best Spanish authors. The History of Spanish Literature will be covered by the study of text-book and by lecture. An outline of Spanish History, as full as time permits, will be given. The general aim will be so to train the eye, the ear, the tongue that the graduates may be able to use Spanish with a fair degree of ease and accuracy.

## GENERAL INFORMATION

---

### THE HAMPDEN-SIDNNEY AIM

It is the aim of Hampden-Sidney College to prepare the highest type of manhood to fill all the different callings of life. To that end the greatest care is exercised in all of the following particulars. Emphasis is placed upon the development of Christian character and sound scholarship. Every effort is exerted to foster a wholesome moral atmosphere. Only men of pronounced Christian character and scholarly attainments are chosen to positions in the faculty. For members of its student body the college is seeking only young men who are adequately prepared and of good moral character. Young men who indulge in such vices as profanity, drinking, gambling, and the like *are not wanted* at Hampden-Sidney. Nor are students, new or old, wanted, who intend to engage in the practice of hazing.

### DISCIPLINE

The discipline of the College is in the hands of the President, Professors, and Faculty, under regulations adopted by the Board of Trustees. Its object is to maintain regularity and order in the institution, to shield its students from temptation and vice, and to cultivate among them the spirit of honor and manliness. The principle on which it proceeds is what has for many years been known in the universities and colleges of Virginia as "The Honor System," and has been found most effective in the development of good character and conduct. Fortunately, other means are seldom needed to secure the desired end, but, when necessary, they are resorted to in the form either of admonition, suspension, or dismissal, as the gravity of the offense may demand.

The maintenance of the Honor System is primarily in the hands of the "Student Council," elected by the students themselves.

### GENERAL RULES OF ABSENCE

Regular attendance on classes is of prime importance, and the rules stated in the catalog regarding absences will be enforced.

1. No student shall leave College without written permission from parent or guardian presented to the Dean in advance. This rule does not apply to the regular holidays.

2. General excuses allowing a student to leave College at will, and blank excuses to be filled in by the student will not be honored.

3. All students must begin attending classes the day college opens, or as soon thereafter as possible. A student reporting to a class after the first scheduled recitation is counted absent from all previous recitations, and such absences can be removed only by giving a satisfactory explanation to the Dean.

4. The demoralization attendant on a holiday is always aggravated by requests from parents that their boys be allowed to leave before the appointed time, and by failure of the students to return promptly after the holiday. Such requests from parents cannot be granted, and students returning late must pay a fee of \$1 for every class missed. No absence, however, will involve a total fee of more than \$7. In addition to this fee the student must present a written excuse from his parent for returning late.

5. If a student's absences from any course amount to 10 per cent. of the total number of class meetings for the session, he will not be given credit for the course. Absences due to sickness or participation in authorized intercollegiate contests are not counted.

6. Every unexcused absence counts a zero. A student receiving six zeros during any term on account of absences, or for any other reason will be dismissed from college.

Parents are earnestly requested to co-operate with the administration in its efforts to secure regular attendance. The stated holidays allow all the relaxation needed. Week-end permits, permits to attend football games away from the College and the like are unnecessary and demoralizing.

### AUTOMOBILES NOT ALLOWED

"Whereas owning and operating automobiles by students is demoralizing in that it tends to cause unrest, to divert the attention of the students from the main purpose of their presence in the institution and to cause them to neglect their College duties, therefore, Be it resolved that owning and operating motor cars by students is prohibited and that the President be directed to notify the parents and guardians of all students of this action and to urge them most earnestly to co-operate with the College authorities in carrying out the order of the Board. This action does not apply to students whose homes are sufficiently near to the College to enable them to board at home and drive in to attend classes."

(Resolution passed by Board of Trustees.)

### CHURCH AND CHAPEL ATTENDANCE

Morning worship is held in the Chapel every day, except Sunday, and students are required to attend. They must also attend church on Sunday morning in such places as their parents or guardians may request; or, without such request, in the place appointed by the Faculty. Reasonable provision is made for necessary absences from these exercises, and the rules will be enforced.

### COMPLEMENT OF HOURS REQUIRED

All Seniors whose courses lead to graduation the following June must take at least twelve hours per week as a complement, even though they may not need so many hours in order to graduate. All other students must have a minimum of fifteen hours per week; but no student may take a course of more than 18 hours a week without a special action of the Faculty.

### QUARTERLY REPORTS

Each professor keeps a daily record of the attendance and recitations of the members of his classes, and at the end of each quarter a statement of the standing in scholarship; of the number of absences from recitations, chapel, and church; and of any other matters requiring particular notice, is sent to the parent or guardian of each student. In the middle of each quarter students are notified as to subjects in which they are behind. This notice is also sent to parents.

### EXAMINATIONS

In the classes meeting only once a week an examination is held at the close of the session. In each of the other classes two examinations are held—one in January, and one at the close of the session. These examinations, conducted by the professors severally, are usually written, but may be either oral or written, or both combined, and are designed to test thoroughly the student's knowledge of the studies pursued. On the basis of their standing for the session students are divided into three groups. Those in the first group are announced as distinguished; those in the second are sustained and permitted to advance; while those in the third are required to take the study again in class unless sustained in a re-examination. Unexcused absence from examination is counted as failure.

### RE-EXAMINATIONS

Reëxaminations may be taken between the close of the session and the first day after the Christmas holiday next following. Under no circumstances may a reëxamination be postponed to a date later than the end of the second week of the fall term, if the subject in which the failure occurs is to be pursued the following session, or is a prerequisite.

A fee of \$3.00 is charged for every reëxamination, or for a special examination of any kind. A student must present to the examining professor before the examination is taken a receipt from the Financial Secretary showing that this fee has been paid. Reëxamination will not be allowed on more than two subjects during any one term, and only one reëxamination is allowed in any subject.

### CREDIT FOR SUMMER WORK

Students desiring to secure credit on work done in Summer Schools must *first* have the approval of the professor in whose department the credit is sought.

### MINIMUM SCHOLARSHIP REQUIREMENTS

The passing mark in Freshman courses is 65; in Sophomore courses, 70; in Junior and Senior courses, 75.

Members of the Freshman class for the first term must pass in one subject and attain a grade of not less than 60 in another subject. For the second term they must pass in two subjects and attain a grade of not less than 60 in a third subject.

Members of the Sophomore class for each term must pass two subjects and attain a grade of not less than 65 in a third subject.

Members of the Junior Class, at the end of any term, must attain the passing grade in classes amounting to at least seven hours a week.

Members of the Senior Class, at the end of any term, must reach the pass mark in classes amounting to at least eight hours a week. Members of this Class failing at the end of the second

term to reach the pass mark in classes amounting to eight hours a week must take the regular work of the Senior Class again the following session; those who, at the end of the second term, reach the pass mark in classes amounting to more than eight hours a week may make up the deficiency without residence at the College, but they must appear at the College for all examinations, and they will be graduated at the Commencement next following the date on which the last of the deficient work has been made up.

Students pursuing courses that do not lead to a degree must maintain the same grade in all respects and be governed by the same conditions as regular students similarly classified.

The system outlined above tends to put the real student on his mettle. It cuts out the trifle, stirs the sluggish, and so enables the classes to progress the better with their work. The conditions imposed are reasonable enough and should prove a stimulus to more earnest and successful study.

### ATHLETICS

Venable Field, of ample size and conveniently situated, includes a football and baseball field, tennis courts, and a quarter-mile running track.

Hampden-Sidney College is a member of the Virginia-North Carolina Intercollegiate Athletic Conference and is governed by its eligibility rules.

The control of all athletic matters is in the hands of the Athletic Council and the General Athletic Association. A strict limit is placed upon the number of games played away from the College. The general rules governing athletics are:

No one shall be a member or manager of any College athletic team who is not a regularly matriculated student.

No student under twenty-one years of age will be permitted to accompany any team for games away from the College, either as a regular member of the team, as a substitute, or as manager, except upon written permission from his parent or guardian previously addressed to the President of the College.

For the purpose of playing intercollegiate games, eight days away from the College are allowed the football team, six to the basketball team, and eight to the baseball team.

The athletic teams shall not have contests elsewhere than upon the College grounds with any teams except those from other institutions of learning, unless previously authorized by the Athletic Council.

No games or guarantees shall be arranged without the previous consent of the Athletic Council.

The number of men, including coach and manager, whose expenses will be paid on trips shall be limited in football to twenty-two (22), and in baseball to sixteen (16), and in basket-ball to ten (10), except with the previous consent of the Athletic Council. The Council will not bear any extra expense of men who do not travel with the teams.

The Athletic Council will be responsible for no expenditures which it has not previously authorized.

By order of the Board of Trustees college organizations are not permitted to travel during Sunday hours.

#### MCALLISTER ATHLETIC TROPHY

This is a silver loving cup donated by Mr. J. T. McAllister, of Hot Springs, Va. It is presented to that class making the highest score in track events on the annual Field Day. It was won in 1925-1926 by the Sophomore Class.

#### THE W. B. LORRAINE TENNIS TROPHY

A cup is awarded annually to the winner of the Singles in the Tennis Tournament. This trophy becomes the permanent property of the winner of three consecutive contests. Dr. W. B. Lorraine of Richmond, Va., is the donor of the trophy.

#### THE DENNY TRACK TROPHY

Mr. Robert A. Denny, of Winchester, Va., has presented a trophy to be awarded each year to that member of the student body who proves himself most proficient in the 100 yards, 220 yards, 440 yards, and half-mile races in the Annual Field Day contests.

### THE GAMMON CUP

Dr. Edgar G. Gammon, of Selma, Ala., formerly Pastor of College Church, awards annually a cup to that student who has best served the College during the year. Character, scholarship, and athletic ability are considered.

### THE ALGERNON SYDNEY SULLIVAN MEDALLION

This medallion is presented by the New York Southern Society in memory of its first President, Algernon Sydney Sullivan. It is awarded to some member of the graduating class for admirable spiritual qualities, outstanding, and practically demonstrated in daily life with other people.

### THE GEO. W. BAGBY PRIZE

Mr. and Mrs. George Gordon Battle of New York offer an annual prize of fifty dollars for the best essay written by a student of the College, dealing with ante-bellum life or history in Virginia or in the South. This prize is called "THE GEORGE W. BAGBY PRIZE," in memory of the distinguished Southern writer whose name it bears. All essays in competition must be submitted to the President not later than the 15th of May. The papers submitted must be typewritten, and the winning essay will be deposited in the College Library. In case no essay is deemed of sufficient merit the award will not be made. This prize will not be awarded a second time to the same contestant.

### DEBATE COUNCIL AWARD

The Debate Council makes an annual award of ten dollars to that student of the College who, in the judgment of the Council, makes the best record in intercollegiate debating during the year.

### MAGAZINE POETRY PRIZE

The Hampden-Sidney Magazine offers an annual cash prize of five dollars to that member of the student body who contributes the best piece of verse during the college year. To enter this contest the student must have at least three poems published in the Magazine during the year, all of which must be in the hands of the editor before the 1st of May.

### LITERARY SOCIETIES

Prominent among the means of culture are the two literary societies: The Union, organized in 1789, and the Philanthropic, organized in 1805. Two halls are set apart for their use in McIlwaine Hall. Each society is represented in a public exhibition about the middle of March, and at Commencement, by chosen speakers.

Each society awards four medals for excellence in various lines of society work. For the session of 1925-'26 these medals were awarded as follows:

#### Philanthropic Society

- SENIOR ORATOR'S MEDAL (given by Governor E. Lee Trinkle)  
—L. F. Kinney.  
JUNIOR ESSAYIST'S MEDAL—G. H. Thompson.  
SOPHOMORE DEBATER'S MEDAL—W. P. Martin.  
FRESHMAN DECLAIMER'S MEDAL (given by Mr. L. A. Tynes)  
—H. M. Smith.

#### Union Society

- SENIOR ORATOR'S MEDAL—None given.  
JUNIOR ESSAYIST'S MEDAL—J. M. Preston, IV.  
SOPHOMORE DEBATER'S MEDAL—H. C. Gilmer, Jr.  
FRESHMAN DECLAIMER'S MEDAL—E. R. Carpenter.

### PUBLIC SPEAKING

At the annual celebration of the Literary Societies about the Middle of March three representatives of each Society deliver orations. The best speaker on this occasion is chosen to represent the College in the annual State Intercollegiate Oratorical Contest.

Under the auspices of the Debate Council the representatives of the two Literary Societies from time to time engage in intercollegiate debates with teams representing other institutions. A member of the Faculty acts as adviser and coach for the debating teams.

Tuesday evening of Commencement Week the Union and Philanthropic Societies contend for the Halsey Trophy. On this occasion medals are awarded for excellence in the several phases of literary society work. On Commencement Day a valedictory

address is delivered by a member of the Senior Class, elected by the Class.

### HALSEY TROPHY FOR DEBATE

Through the liberality of the Hon. Don P. Halsey, of Lynchburg, Va., a silver loving cup was provided in 1905, as a trophy to be contested for each year by representatives of the two literary societies in public debate, the winning society to hold the cup until the next contest. Should one society win three successive years, the cup is the property of that society. This cup was awarded to the Union Society in 1915. The same donor then provided a second cup. This was won in 1916 by the Philanthropic Society, by the Union Society in 1917, and by the Philanthropic Society again in 1918, 1919, and 1920, the second cup being awarded the latter Society; and a third provided by the same donor was won by the Union Society in 1921 and 1922, and by the Philanthropic Society in 1923, 1924, and 1925, becoming the property of the latter society. A fourth cup was provided by Judge Halsey in 1926, and the debate was won by the Union Society that year. The debate is held Tuesday evening of Commencement Week.

### STUDENT PUBLICATIONS

*The Hampden-Sidney Magazine*, published monthly, is conducted by the societies jointly, and the Board of Trustees offers two medals, one for the best three literary articles contributed during the session by a member of the Freshman or Sophomore Class, and one for the best three contributed by a Junior or Senior, the Faculty making the award. One of these articles must be submitted to the editor by December 15th and all articles on or before May 15th.

The students of the College also publish an annual volume called *The Kaleidoscope*, of which thirty-two volumes have been issued. This publication, intended primarily to foster college spirit, contains each year valuable articles dealing with the history of the institution, and with the lives and services of its officers or alumni.

*The Hampden-Sidney Tiger*, a weekly publication by the students reflecting the various phases of College life, was started in 1918-'19.

## YOUNG MEN'S CHRISTIAN ASSOCIATION

1926-1927

A. K. DUDLEY, *President*A. F. HUDGINS, *Vice-President*R. H. GROVER, *Secretary*G. H. THOMPSON, *Treasurer*

A student branch of the Young Men's Christian Association is located at Hampden-Sidney, and is a potent factor in both the social and Christian life of the students. On the first Friday evening after the opening of College the initial Y. M. C. A. reception is held for the purpose of bringing the new men into closer touch with the older students and members of the faculty. Other receptions are held at intervals throughout the session. The Ladies Auxiliary to the Y. M. C. A., composed of ladies from the homes on "The Hill," renders valuable assistance on all social occasions. The Y. M. C. A. endeavors to make the new men feel that they are among friends from the start.

The Y. M. C. A. handbook furnishes complete information concerning campus life and activities.

Under the auspices of the Y. M. C. A., Bible Classes, Mission Study Classes, Wednesday Evening Prayer Services, and Sunday Evening Services are conducted throughout the session, and evangelistic services at intervals.

The reading rooms are attractively arranged and well supplied with wholesome games, magazines, and newspapers, both religious and secular.

When a student enters College he becomes a member of the Y. M. C. A., and his membership card is recognized by all city associations.

### MINISTERIAL ASSOCIATION

This is an organization composed of those students who are looking forward to some form of Christian work as a life calling. Its purpose is the mutual encouragement and spiritual strengthening of its members. Membership is of three kinds: Regular, Associate, and Honorary. Through this organization Christian work is carried on at the near-by mission points. Its members also work under the direction of pastors and Home Mission Committees during the vacation season.

### OMICRON DELTA KAPPA

In the spring of 1924 there was organized at Hampden-Sidney Lambda Circle of the National Honor Fraternity of Omicron Delta Kappa. The object of this fraternity is to encourage and honor leadership, and to utilize this leadership for the highest good of the College. The membership is composed of the recognized leaders in the various college activities and certain members of the Faculty chosen by the student members of the fraternity. At the regular monthly meetings every phase of college life is discussed, and constructive policies are adopted. These policies are put into effect by the molding of opinion and sentiment on the campus through the personal influence of the leaders.

Not only is membership restricted as to numbers by the national constitution, but the high standard to which the members must measure up constitute an additional restriction. At Hampden-Sidney and elsewhere membership in O. D. K. is the highest honor on the campus, outranking even membership in Phi Beta Kappa where both these honor fraternities exist.

### MEDICAL ATTENDANCE

The health and physical welfare of the students are under the supervision of the College Physician. A fee of five dollars (\$5.00), required of each student, entitles him to the services of the College Physician during the session without further charge.

### INFIRMARY

The Infirmary is located on the second and third floors of Westminster Building, and is well equipped with hospital conveniences. The rooms are large, amply lighted and well suited to the purpose. Students too ill to remain in their own rooms will be transferred to the Infirmary, where they may be under the care of the regular nurse. One room in the Infirmary is reserved for a special nurse in case a student becomes ill enough to need constant attention; the services of this nurse are paid for by the student.

### SANITARY ARRANGEMENTS

The sanitary arrangements of the College buildings are modern and complete. A supply of filtered water meets all the requirements of convenience and health, including facilities for hot and cold baths. Fire-escapes are installed within easy reach of all of the rooms in Cushing Hall and Venable Hall.

## EXPENSES

These are made up (1) of certain fees paid to the College direct and (2) of other and variable expenses.

### I. FEES

#### 1. Regular Fees.

|   |          |
|---|----------|
| Tuition, \$50; Maintenance, \$50; Room Rent in College Dormitories, with furniture, *electric lights, steam heat, and baths (two students in a room), \$80..... | \$180.00 |
| †Athletic Fee, \$12; Gymnasium, \$5; Medical, \$5; Campus Fee, \$15, Infirmary Fee, \$10.00.....  | 47.00    |
| Deposit (returnable, less damage) .....   | 5.00     |
|   | <hr/>    |
|   | \$232.00 |

#### 2. Special Fees.

Laboratory fees in the Science Courses are given in the description of those courses under "Outline of Work."

**All fees must be paid on date of matriculation.** This includes \$100 for board for the first term, if the student eats at the Students' Club. The balance of the board bill is due and payable at the beginning of the second term. Board is furnished at cost at the Students' Club, and any balance at the end of the session is refunded.

Charges for breakage in Science Courses represent the actual cost of material, and any unused portion of the deposit is returned to the student at the close of the session.

In all courses in which fees are charged, a repetition of the course necessitates a repetition of the payment of the fee.

All candidates for degrees must deposit with the Financial Secretary on or before May 1st of each session a graduation fee of \$5.00; the fee is returned to those who fail to graduate.

\*Two bulbs of 25 and 50 watts are furnished by the College; any additional bulbs are to be paid for by the occupant of the room.

†The Athletic Fee admits students, without further charge, to all Varsity games played on the Campus.

Students entering the second term are charged a tuition fee of \$30.00.

Rooms in College Dormitories are rented for the entire session only, and when students move into private homes, there will be no remission of fees; students entering during the second term pay a rental of \$45.00.

A student has no claim on his room after the end of the session; after this date the room is open to the first applicant. However, a student may hold his part in a room by depositing with the Financial Secretary \$5.00 on or before the close of the session. The same deposit is required of any new student, who wishes a room reserved. Should the applicant enter as a student, the deposit is counted as a part of the rental of the room; should he not enter, the deposit is forfeited.

All students who do not occupy rooms in College Dormitories are required to pay a bath fee of \$5.00 per session.

All fees are payable to P. Tulane Atkinson, Financial Sec'y.

### 3. Exemption from Fees.

A student who is assigned a scholarship is relieved from payment of the tuition fee (\$50.00) for that session, but is liable for all other charges. A scholarship is assigned for only one session.

A candidate for the ministry who is under the care of his proper Church authorities and presents an official statement from them, is excused from the payment of the tuition fee throughout his college course. The son of a minister of any denomination is also exempt from the payment of the tuition fee.

### 4. Return of Fees.

Fifty per cent of the tuition fee, maintenance fee and room rent is returned to a student dropped from the College roll at the end of the first term under action of the Scholarship Rule (p. 74). When, in the opinion of the College Physician, the health of a student obliges him to leave College during the first term for

the remainder of the session, whatever portion of the tuition fee for the second term has been advanced by the student is refunded to him by the Financial Secretary. But in no case are other fees refunded.

## II. OTHER AND VARIABLE EXPENSES

\*BOARD.—A majority of the students room in College Dormitories, and take their meals either at the Students' Club or in private homes. A small number room and board in private homes.

All rooms in College Dormitories have closets; and are furnished with dressers, beds, mattresses, springs, tables and chairs. Bed coverings, towels and the like must be furnished by the student, and the amount needed varies with the individual. Room rent in the dormitories includes heat and light. Both dormitories have an ample equipment of baths and conveniences.

The Students' Club, under the management of the students and with a lady in charge, furnishes good table board. The monthly charge represents the actual cost of food and service. Even at the present high cost of living, it averages \$23.00 a month. The table board in private families costs \$30.00 a month; a room, \$5.00 a month.

Washing, per month, will cost \$2.50, or \$3.00.

Books will cost from \$15.00 to \$20.00 for the session and are sold for cash only.

The incidental expenses will depend upon the habits of the student and the allowance from home. There is no more fruitful source of injury to a student than too large a supply of pocket money.

The total cost to an economical student who pays every item of expense, including College fees and every necessary outlay, need not exceed \$600.00 for the session.

---

\*Students are not allowed to room or board except at places approved by the Faculty.

## SCHOLARSHIPS

\*The following scholarships are perpetually endowed:

THE H. H. HOUSTON SCHOLARSHIP gives free tuition the following year to the student making the highest average in the Freshman class.

THE GEORGE E. TUCKETT SCHOLARSHIP gives free tuition the following year to the student making the highest average in the Sophomore class.

THE JAMES H. FARISH MEMORIAL SCHOLARSHIP.

THE DRYDEN-MOREHEAD SCHOLARSHIPS—(The money necessary to maintain four scholarships was bequeathed by Mrs. Sarah A. Dryden.)

THE W. H. CUNNINGHAM SCHOLARSHIP.

THE FRANCIS-HENRY ALLEN MEMORIAL SCHOLARSHIP.

THE LUCY ANDERSON SCHOLARSHIP.

MERRETT MEMORIAL SCHOLARSHIP.

J. F. MORTON SCHOLARSHIP.

RANDALL HOLDEN SCHOLARSHIP.

VANDERFORD BOULDIN MEMORIAL SCHOLARSHIP.

COOPER SCHOLARSHIP.

WHITTEN SCHOLARSHIP.

W. C. NEWMAN SCHOLARSHIP.

MRS. EUNICE LUPTON SCHOLARSHIP.

ELIZABETH REBECCA ROBERTSON MEMORIAL SCHOLARSHIP.

L. H. PAUL SCHOLARSHIP.

MRS. J. WILLIAM GILKESON SCHOLARSHIP.

SAMUEL FINLY GILKESON MEMORIAL SCHOLARSHIP.

DAVID E. EAST SCHOLARSHIP.

FARMVILLE MFG. CO. SCHOLARSHIP.

MR. AND MRS. THOMAS EASLEY SCHOLARSHIP.

DR. JOSEPH D. OSBORNE SCHOLARSHIP.

HENRY STOKES SCHOLARSHIP.

ROBERT T. HASLER SCHOLARSHIP.

---

\*Many more scholarships have been endowed and partially paid up. This list includes only those fully paid up December 10, 1926.

MRS. H. A. MEYER SCHOLARSHIP.  
HUGH B. SPROUL AND WIFE SCHOLARSHIP.  
JAMES G. TINSLEY MEMORIAL SCHOLARSHIP.  
MRS. F. S. ROYSTER SCHOLARSHIP.  
F. S. ROYSTER SCHOLARSHIP.  
F. S. ROYSTER, JR., SCHOLARSHIP.  
MRS. MARY R. WHITE SCHOLARSHIP.

### MINISTERIAL SCHOLARSHIPS

THE S. P. LEES SCHOLARSHIP.  
THE PERCY ECHOLS MEMORIAL SCHOLARSHIP.  
THE HALDEMAN MEMORIAL SCHOLARSHIP.  
THE EVERETT WADE BEDINGER, D. D. SCHOLARSHIP.  
(Established by Rev. B. F. Bedinger, D. D.)  
DAVID B. TAYLOR MEMORIAL SCHOLARSHIP.  
AGNES MONTGOMERY TAYLOR MEMORIAL SCHOLARSHIP.  
WILLIAM S. MCCLINTIC MEMORIAL SCHOLARSHIP.  
HETTY JANE MCCLINTIC MEMORIAL SCHOLARSHIP.

The following Endowed Scholarships afford the recipient free tuition for one year, and expire with the session named:

THE THAYER MEMORIAL SCHOLARSHIP (1935-36).  
THE J. I. TRIPLETT MINISTERIAL SCHOLARSHIP (1937).  
THE HOLMES CONRAD MEMORIAL SCHOLARSHIP. (1937).  
THE W. A. HIGGS SCHOLARSHIP. (1937).  
THE SOUTHSIDE SCHOLARSHIP (1931-32).

SAMUEL R. BOOKER STUDENT LOAN FUND. (Established by the will of Dr. William D. Booker.)

CERTAIN SCHOLARSHIPS offered by the Board of Trustees to accredited High Schools in Virginia.

All scholarships are assigned either by the President or by the Faculty and are available for one session only. They may be cancelled at any time by vote of the Faculty when the deportment or the work of the recipient is deemed unsatisfactory.

### LOCATION

In order to reach Hampden-Sidney College purchase your ticket to Farmville, Va., on the main line of the Norfolk and Western Railroad. From Farmville you drive by automobile over a fine sand-clay road to Hampden-Sidney in twenty minutes. Automobiles meet all trains. Check your baggage to Farmville.

The Post-Office is Hampden-Sidney. The telegraph, express, and freight offices are at Farmville. The College has long-distance telephone connections through Farmville.

### FORM OF BEQUEST

I give and bequeath to the President and Trustees of Hampden-Sidney College the sum of.....for the use of said institution.

### LEGAL TITLE

"THE PRESIDENT AND TRUSTEES OF HAMPDEN-SIDNEY COLLEGE."

Communications on business should be addressed to the President.
